◆ PEOPLE, PURPOSE AND PERFORMANCE — ENGINEERED TO THRIVE TOGETHER

At AMC we integrate Sustainability, DEI and ESG principles into every core HR function — transforming people practices into engines of long-term resilience, fairness and organisational strength. From talent acquisition to workforce planning, we help businesses build people-centric systems that advance social responsibility, ethical governance and inclusive growth.

In talent acquisition and onboarding, we design inclusive sourcing strategies and bias-free assessments that strengthen diverse talent pipelines while reducing turnover — an essential sustainability and cost-efficiency metric. Our performance management frameworks reward not only results but also collaboration, ethical conduct and inclusive behaviours, reinforcing a culture aligned with modern ESG expectations.

Through learning and development, we upskill teams on ESG literacy, psychological safety, cultural competence and inclusive leadership, preparing the workforce for a more equitable and responsible future. In employee relations, we support fair grievance

mechanisms, pay-equity audits and employee resource groups that enhance social sustainability and ensure every voice is valued.

Our compensation, benefits and workforce-planning practices align wellbeing, flexible work models and headcount strategies with DEI and sustainability goals. Using advanced HR analytics, we track DEI indicators, retention patterns and workforce risks to drive continuous improvement and transparent ESG reporting.

> *"A future-ready HR ecosystem reduces risk, strengthens culture, and enables people, purpose and performance to thrive together."*

◆ GREEN HR — PAPERLESS, FLEXIBLE, ACCOUNTABLE BY DESIGN

AMC's ESG-Driven HR Solutions

1. Green HR & digital transformation

- Transition to fully paperless HR operations — e-onboarding, digital personnel files, cloud payroll — to reduce administrative waste.
- Develop remote and hybrid work policies that improve flexibility and employee satisfaction.
- Implement HR-led office sustainability programmes that encourage responsible resource use and behavioural change.

2. ESG-linked performance & rewards

- Build KPIs and reward structures that recognise contributions to sustainability, ethical conduct and inclusive hiring.
- Align compensation and benefits with social-sustainability goals, including fair-pay audits and mental-health-support initiatives.
- Integrate ESG metrics into leadership scorecards to reinforce accountability and transparency.

3. Social sustainability & UAE Labour compliance

- Conduct human-rights due diligence across labour supply chains and accommodation standards.
- Develop Emiratisation strategies that prioritise capability-building, leadership pathways and long-term career growth for UAE Nationals.
- Ensure full compliance with UAE Labour Law requirements on non-discrimination, flexible work and psychological safety.

4. Sustainable talent management

- Reduce turnover by embedding purpose, wellbeing and equity into your Employee Value Proposition (EVP).
- Train recruiters to assess candidates for long-term cultural alignment and commitment to your ESG mission.
- Design internal mobility and succession programmes that maximise existing talent and reduce external hiring dependency.

5. DEI integration across the employee lifecycle

- Embed DEI principles into recruitment, onboarding, performance management and leadership development.
- Conduct DEI diagnostics and workforce demographic analyses to identify representation gaps and build targeted action plans.
- Deliver inclusive leadership and cultural-intelligence training to strengthen decision-making and reduce bias.

◆ KEY TAKEAWAYS

- ESG is no longer a reporting exercise — it is an HR operating model.
- Sustainable HR lowers turnover, strengthens employer brand and de-risks compliance.
- Emiratisation and ESG are the same conversation when done properly.
- Every HR lever — hiring, pay, L&D, analytics — has an ESG dimension.

The result is a future-ready HR ecosystem that reduces risk, strengthens culture and enables people, purpose and performance to thrive together — empowering organisations to build resilient, responsible workplaces through ESG-driven HR.

Start with an ESG-HR readiness review.

AMC runs a structured diagnostic across the full employee lifecycle — and hands you a prioritised ESG-HR roadmap.
